

# Working with Children

Safe Actions conducts manual tasks training consistent with the Code of Practice: Manual Tasks and based on the specific needs of working with children. The OSH regulations, risk management and reporting are covered in the theory section.

The Manual Tasks when working with Children short course covers:

- Holding and carrying a child
- Supporting and picking up a child from low surfaces or the floor
- Placing a child into equipment
- Moving equipment e.g. trikes and sandboxes
- Support whilst walking
- Static positioning when feeding, comforting or dressing a child

In this 4 hour course, workers are coached in self protective behaviours when completing these tasks and the use of leans and supports to reduce the risk or effort associated with these activities.

This course is ideal for workers who are new to the industry and those requiring a refresher of their manual tasks training.

Attendance certificates and manuals are available on request. Content can be customised to suit a particular organisation.
