

# Safe Transporting for Volunteer Drivers

Safe Actions conducts manual tasks training consistent with the Code of Practice: Manual Tasks and based on the needs of workers in the Aged Care and Disability environment. The OSH regulations, risk management, reporting and interaction with other legislative and Australian standard requirements are covered in the theory section.

The Manual Tasks – Safe Transporting for Volunteer Drivers short course covers:

- Applying a wheelchair and occupant restraint systems in a van
- Range of assistive equipment

In this 2.75 hour course, workers are coached in self protective behaviours when completing these tasks and the use of equipment to reduce the risk or effort associated with these activities.

This course is ideal for volunteers who drive the vehicle and assist with wheelchair strapping only.

Attendance certificates and manuals are available on request.

Content can be customised to suit a particular organisation.
